76mm Traditional Blinds

custom made

Preview

The 76mm Traditional Blinds range effortlessly combines modern refinement with a traditional style of construction.

This timeless blinds design compliments many decor styles and is the ultimate in the Venetian Blinds range.

The wide 76mm slat allows for superior light and privacy control and the natural subtle grain of the wood is enhanced with contemporary stain and paint colours. The Phoenixwood is a plantation grown wood variety which has the unique benefit of being of a very light weight.

With a high degree of natural stability and strength, combined with its light weight, the Phoenixwood is the perfect material for the Traditional 76mm Blinds.

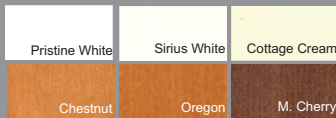

Benefits of 76mm Traditional Blinds:

- Offer 95% to 99% U.V protection
- Superior light and privacy control
- Wide slat size opens up the view
- Unique natural warmth and texture of timber

Standard ladder cord, tilt cord, pull cord, headrail, end bracket, support bracket, tassel, bottomrail button colour are as below. However, you may customize them to create your own style.
